PROJECT INSTRUCTION

Project Assignment (20%)

In this project assignment, you are required to work in **a group of FIVE (5)** to develop project theme **S.P.O.R.T.S (sports-related application)** using ASP.NET Core Web App (Model-View-Controller) and mobile accordingly. You are required to develop the first project in ASP.NET Core Web App (Model-View-Controller) then, you need to replicate the same project using mobile .NET technology.

The duration of the project development is 8 weeks.
Table below is the details of project

S.P.O.R.T.S Project	Week development	Full Mark
Planning/Requirement/Analysis	5 - 8	6
ASP.NET Core Web App (Model-View-Controller)	8 - 14	7
Mobile using .NET	11 - 14	7
Total		20

Instructions:

1. For the first project, develop your application using ASP.NET Core Web App (Model-View-Controller) and using C# language.
2. Your application must at least consist of FOUR (4) modules.
3. Your application must be connected to the database and consists of CRUD (Create, Read, Update, Delete) operations.
4. Your application must be able to run using IIS localhost server.
5. For the second project, transform your first project to mobile using .NET version with at least consist of working menus without CRUD (Create, Read, Update, Delete) operations.
6. You could also use the following .NET platform if you are unable to develop your first project according to the instructions, however, it will deduct 2 marks to overall marks:
    1) ASP.NET Web Application (.NET Framework)
    2) ASP.NET Core Empty
    3) ASP.NET Core Web App (Razor Pages)
    4) Blazor Web App
7. Write a **PROJECT REPORT**. It must include the following:
    a. Cover page: Title of the project, group number according to AUTHOR, team members, Matric No and Section
    b. Introduction to the project
    c. Problem Statement
    d. Project Objectives

e. Proposed system modules and submodules
f. Screenshots of Web and Mobile Application
g. Discussion/Conclusion
h. Attachment: Project Assessment Rubric *(print this section and attach with your report)*

Submit your project file, presentation slide, report, and all the related files in the project folder. Please ensure your application can be run properly.

example: **Group1_ Report.pdf**
Group1_Slides.pptx
Group1_ Video.mp4
Group1_ Source.zip

- Project presentation will be conducted on Week 14.
- Prepare a short presentation with PowerPoint slides, to last about 10-12 minutes (questions including), where you will demo your application at the same time.
- All group members must be participating in project presentation.

MARKING SCHEME OVERALL:

OBE Component	Item	Full Marks	%
1) Cognitive	Reporting	4	4
2) Psychomotor	Functionality, Applicability, Achievability	14	14
3) Affective	Presentation	2	2
Total		**20**	**20**

Project Assessment Rubric

MARKING SCHEME OVERALL:

OBE Component	Item	Full Marks	%
4) Cognitive	Reporting	4	4
5) Psychomotor	Functionality, Applicability, Achievability	14	14
6) Affective	Presentation	2	2
Total		**20**	**20**

Rubric Psychomotor

Domain of learning	Item	Marks
Project 1 (Prj1)		
P3	Able to develop a program correctly without error.	/2 Meet all item 2 has error 1 Unable to develop 0
P4	Able to develop a program that meet the requirement. (GRITT: I4 - Digital Skills) (SDG 9)	/4 1-one module CRUD 2-two module CRUD 3-three module CRUD 4-four modules CRUD
P4	Value added of creativity/knowledge/skill. (GRITT: I4 - Digital Skills) (SDG 9)	/1
Project 2 (Prj2) Mobile		
P3	Able to develop a program correctly without error.	/2 Meet all item 2 has error 1 Unable to develop 0
P4	Able to develop a program that meet the requirement mobile. (GRITT: I4 - Digital Skills) (SDG 9)	/4 Static, only link to other Menus 1 Able to link to each pages 2 2 modules CRUD 3 3 modules CRUD 4
P4	Value added of creativity/knowledge/skill. (GRITT: I4 - Digital Skills) (SDG 9)	/1
Total		**/14**

Rubric Cognitive

Domain of learning	Item	Marks
C3	Analyse appropriate design to solve problem. Develop a complete and coherence proposal of the new system application	/2
C4	Elicit the requirements of the system and model the requirements using structural model. Specify the relevance system requirements using the correct technique and approaches	/2
Total		**/4**

Rubric Affective

Domain of learning	Item	Marks
A3	Share spoken ideas in group in presentation, Organisation of group presentation, Support members in Q&A session. (GRITT: TT3 – Communication Skills)	/2
Total		**/2**
